

# CHRISTENSEN'S PLANT CENTER

## Wholesale Supplier To Landscape Professionals

### New Faces This Spring

Finally the snow has melted and the warmer weather is on its way and with that we find new things popping up all around.

Well, the same is here at Christensen's Plant Center with two new salesmen to help you out with your selection of plants and trees.

First let me introduce myself, David Dermyer. I have been in the green industry for roughly 15 years, doing everything from being a laborer to installing patios and planting beds, and to being the trusted individual out selecting those plants for the beds. I have also been a Supervisor in a fertilizer department.

Our other new salesman this year is Ed Good. If the name is familiar, he is Jeff's older brother and was previously a salesman here for three years. Ed, like Jeff, grew up in the family greenhouse, nursery, and landscape business, as well as running his own landscape company in recent years. Even though Ed won't admit it, he has over 50 years experience in the green industry. He has been a laborer, salesman, manager, buyer, truck driver, landscape designer, and everything else. Ed has experience in annuals, perennials, shrubs, trees and hardscape, and still maintains some of his lifelong clients' landscapes.

There are new and exciting plants and hardscape items offered this season at Christensen's that I, Ed, and the other professional sales staff are waiting to show you, the landscape professionals. We are looking forward to seeing you this spring!

Thank you, David
