

CHRISTENSEN'S PLANT CENTER

Wholesale Supplier To Landscape Professionals

What would you like to see?

Every year before we open for spring, we take a good hard look into the products that we supply to our customers. We want to know if it's the best quality for the price, if it is something in demand or a fleeting trend. We also seek out new products and vendors in order to offer you something new or innovative. We go to the trade shows, talk to vendor sales reps and find out what new and improved products they have. And most importantly we listen you, our customer.

So, I have a question for all our customers who visit us in the Hardscape Center. What can we stock on our shelves that would help your crew, your projects and your company? What tools do you use, what brands do you favor and what products do you like because they work better than others? My goal is simple, I want to be able to supply you the necessary tools and products to do your projects efficiently, reliably and cost effectively. I want to save you time and money by not having to go from store to store to find everything you need. If you forgot something for your job, do I have it?

I am stocking our shelves with more tools, more drainage products and more of the necessary items that I feel can help you. However, I want to hear from you because your input is going to be the most important. Please ask for Bryan at the Hardscape Center at 734.454.1412 or email me at pajakb@christensensplantcenter.com.
