Paving the Road to Recovery

Speaker: Adam DeLamielleure, *Unilock Michigan, Inc.*

As the 2010 season progresses into summer, early indications show that the Michigan economy appears to be improving. Although competition remains fierce, now is the time to position your company for growth during the recovery. Learning about current and future trends within the hardscape industry can help to create growth and future success for your company. Come and learn about these trends and how you can find great opportunities in this dynamic field.

The Green Value of Permeable Paver Systems - A Fendt Builders Supply, Inc. Program

Speaker: Charles R. Taylor, *Ecological Paver Systems - A Division of Advanced Pavement Technology, Inc., Chicago, IL*

In this session, Chuck Taylor will bring his many years of experience promoting and educating civil engineers, municipal engineers, landscape architects, developers, and builders on the cost and environmental benefits of designing and installing with permeable pavements. Attendees will learn about the successes of this environmentally-friendly paving system in the Chicago and midwest markets and how adding this product line can increase sales and enhance your services to a growing new market-GREEN!

Sponsored and hosted by
