

# CHRISTENSEN'S PLANT CENTER

## Wholesale Supplier To Landscape Professionals

(For RBMG)

## Oh! For the Love of...

Buxus, Boxwood, or, if you prefer, just plain Box.

Not a day goes by that a salesman at Christensen's isn't presented with a sprig of boxwood (usually dried out as well from sitting on a dashboard) or a blurry picture of a half-dead box on someone's iPhone. Even better are the landscaper's load list – 15 box! No flavor, no size! Salesman's choice????!!! (or, call your boss!) It's not really that hard, guys!

Do you want...???

koreana, microphylla (a.k.a. sinica var. insularis), sempervirens, or something in between...?

(not to mention the nearly 70 other species that exist)

((Ruth, are you paying attention? Take a deep breath!))

Perhaps you would like...

Chicagoland, Green Mound, Green Gem, Winter Gem, Green Velvet, Winter Beauty, Wintergreen, Schmidt, Suffrut, Vardar Valley, Green Mountain, Graham Blandy, Green Tower, Weller, Inglis...? (to name a few)

It's easy! They're all green and all of them could be trimmed into basically the same shape! What's not to get?

At CPC we actually try to make it easy. Stick to some basics. We sell four tried-and-true varieties with varying growth habits. We'll order anything special you might need!

- 1) B. 'Winter Gem' – fast-growing, large shiny leaves and the three Korean-English hybrids;
- 2) B. 'Green Gem' - small-leaved, small rounded
- 3) B. 'Green Velvet' - medium-leaved, spreading habit
- 4) B. 'Green Mountain' - medium-leaved, upright habit

((Ruth! Wake UP!))

Warning! You will be quizzed!
